

CodeSentinel ML Security Report

1. Repository Fingerprint

security_grade: F
grade_label: Failing
risk_score: 100
total_files: 43
total_vulnerabilities: 24
attack_chains: 9
critical_count: 13

2. Priority Findings (top 10)

[Critical] sample_vulnerable.py:9 - Subprocess Execution

[Critical]

3. Attack Chains (top 5)

Chain 1: Unsafe Deserialization in sample_vulnerable.py:28 Source: query -> Sink: pickle.loads()

Chain

4. Top Risky Files

sample_vulnerable.py - Critical (score 215)
